

The go-to fellowship program for a career in sustainability

Join the network of energy and sustainability professionals and spend a summer working to advance climate solutions in high-impact organizations around the world. Since 2008, Climate Corps has placed over 1200 fellows in leading private and public sector organizations including City of Seattle, Etsy, Google, Mayo Clinic, and Carlyle Group. As a Climate Corps fellow, you will:

- be custom-matched with a host organization based on your location, industry and project type preferences;
- participate in an interactive training and have access to ongoing professional development opportunities, webinars and a growing array of online resources.

Where we work

Climate Commitments

Cross-cutting strategies to reduce emissions including Net Zero, Science Based Targets, and GHG accounting

Supply Chain Sustainability

Targeted strategies to reduce scope 3 emissions and engage suppliers on sustainability initiatives

Renewables and Energy Efficiency

Targeted strategies to implement on-site and off-site renewable energy and scale energy efficiency

Zero Emission Vehicles

Targeted strategies to electrify medium and heavy-duty vehicle fleets

New for 2022: [Learn more about our first ever Climate Corps® Food Waste Fellowship: An EDF-ReFED-Powered Initiative](#)»

Fellow Spotlight

Jess Newman- 2015

As a Climate Corps fellow, Jess helped the NYC Mayor's Office of Sustainability advance Mayor de Blasio's goal of reducing NYC's greenhouse gas emissions 80 percent by 2050. Now the Senior Director of Agriculture & Sustainability at McCain Foods, Jess leads a team responsible for the strategy and execution of McCain's 2025 & 2030 sustainability goals for regenerative agriculture, water use efficiency, carbon intensity and supporting rural livelihoods.

Karan Shetty- 2019 & 2020

As a 2019 Climate Corps fellow, Karan worked with GAF Materials to perform a solar feasibility study for their manufacturing sites and a materials life cycle analysis to inform supply chain decision making. In 2020 he worked with Blue Shield of California on supplier engagement for scope 3 emissions reductions, environmental justice and employee engagement on sustainability. Now a Clean Energy Transition Analyst at PSE Healthy Energy he performs research and analysis on clean energy and environmental justice.
